

- **Road use preservation:**

It has been brought to the attention of the Board by residents complaining regarding the heavy Road use and damage from dump trucks going up and down several roads throughout the day for personal use and delivery of fill to private residences. It is the Highway superintendent's responsibility to monitor this. It was discussed that the road use preservation law is fairly comprehensive, it is a permitting process, requirements for submission of a haul route application, a project traffic worksheet, etc. All Residence need to be aware that permits are required for this.
